2 Instructor

Gabriel C. Drummond-Cole.

Email: blafard@math.sunysb.edu

Course webpage: <http://www.math.sunysb.edu/~blafard/teaching/130spr05>

Office: Math Tower 3-122

Office Hours: TBA

3 Textbook and Grading

The textbook is *Analytic Trigonometry with Applications*, 8th edition, by Barnett, Ziegler, and Byleen

There will be four homework assignments, four in-class assignments, and a final exam. Each homework assignment and in-class assignment will be worth 10% of your final grade while the final will be worth double. If we fall behind and have to cancel in-class assignments, the final will be worth more. If your grade on the final is better than your overall grade, then it will supercede everything else.

The final exam will be on the last day of class, March 4, in the normal class time.

Homework assignments will be available on the course webpage. No late homework will be accepted.

4 Disabilities

If you have a physical, psychological, medical or learning disability that may impact your course work, please contact Disability Support Services, ECC(Educational Communications Center) Building, room 128, (631)632-6748. They will determine with you what accommodations are necessary and appropriate. All information and documentation is confidential.
