

MAT 310: Linear Algebra

Spring 2006

Recitation Section 02 Information

TA Information

Name: Frederico Girao

Office: Math Tower 3-105

E-mail: girao@math.sunysb.edu

Website: www.math.sunysb.edu/~girao

Office Hours: Monday 1-2 pm (3-105) and Tuesday 1-2 pm (Math Learning Center)

Homework Assignments

As always in mathematics classes, doing the homework is an essential part of learning the course material. It is often good to study together with other students. However, the work you hand in must be written in your own words, not copied from someone else.

Homework will be assigned by the course instructor at the beginning of the first class of each week. You should hand in your homework to me on Tuesdays, during the recitation. Submissions consisting of multiple pages must be stapled together. If you cannot get to the recitation, hand them in to my office during the Monday office hour or ask a friend to turn in your homework for you (DO NOT SLIDE YOUR HOMEWORK UNDER MY DOOR). *Late homework will not be accepted.*

The clarity and completeness of your written work will influence its evaluation. Try to be clear and concise, without omitting any details. In addition, please write legibly; if I am unable to read your solutions, with reasonable ease, you may receive no credit.

Finally, if you have questions/complaints about the grading, go to one of my office hours and I'll gladly answer your questions. If you cannot make any of my office hours then you should e-mail me so that we can arrange a time for you to stop by my office.
